Thanks for the clarification Mike. I will proceed with securing the venue. Hope we can talk tomorrow about further logistics.

Hi Robert,

This meeting on the 23<sup>rd</sup> is a tour for the Senator. We are along for the ride. April 4-6 is planned for Glencore's contractor to come out for a site reconnaissance for the upcoming constructions season. Since I was already going to be on site, I thought it would be a good time to hold a public meeting. Glencore will still be coming April 4-6. It may also be a good time for the public meeting as we can use it as a follow up to the Senator's tour to help with what our message needs to be.

I think we stay on schedule, how about you?

Hey Mike,

Quick follow up: I talked with Susan Nicosia with Columbia Falls. She indicated that Council Chambers are likely available for a public meeting on April 4 and she is going to check for availability for the 5<sup>th</sup> and get back to me. We should be good to go for securing a public meeting venue at the City Chambers.

Before we do, I just wanted to double check with you based on my conversation with Susan. She indicated that Senator Tester's visit next week on the 23<sup>rd</sup> was in lieu of, rather than in addition to, having key players tour the site later Apr 4 – 6. She mentioned that because Senator Tester couldn't make it anytime Apr 4 – 6 as originally planned, they moved the date up to meet his availability and that Glencore representatives changed their schedule to meet on site on the 23<sup>rd</sup> rather than 4 – 6.

I just wanted to check back with you to ensure we are still a go for Apr 4 – 6. If so, we can move forward to securing the venue and agenda making. If not, we can plan accordingly. It would be good to have a public meeting soon either way.

I know you are tied up today. I am available tomorrow for a teleconference anytime except 10 – 11 and 12 – 1. Or call me anytime. My work cell is 594.0588.
